Introduction

Currently a Master 1 student in the "Networks: Internet, Cybersecurity, Cloud and Automation (RES)" track at Sorbonne Université, after having obtained my Bachelor's degree in Computer Science from the same institution.

I am currently looking for an internship in the field of networks and telecommunications to put my skills into practice.

Education

Sorbonne Université, Master Parcours RESeaux

Sept 2025 – Mai 2027

- **Key Courses:** Network Architecture, Telecommunication Networks, Network Programming, Concurrent and Distributed System Programming, Signal Processing

Sorbonne Université, Licence en Informatique

Sept 2022 – May 2025

- **Key Courses:** Computer Architecture, Networks, Operating Systems, Databases, Cryptology, Web Technologies, Programming

ESL (Etablissement Secondaire Lazrak), Scientific Baccalaureate
(Mathematics)

Sept 2020 – Mai 2022

Experience

BEST Ingénierie, Morocco — Internship in Design Office: IT and CAD

June 2024 – July 2024

- Creation of technical drawings on AutoCAD
- Implementation of a Windows local network for file sharing among employees (shares, access rights)

Projects

Optimization of an Optical Fiber Network

Projet-Reseau Fibres

- Development in C of a tool for reconstructing and optimizing a metropolitan area network
- Application of graph algorithms for routing, redundancy, and cost reduction

Organiz'asso — Associative Management Platform

Projet-Organiz-asso

- Design of a collaborative website with authentication, role management, and forum
- Implementation of backend functionalities and database integration

Technologies

Languages:

C, C++, Java, Python, Bash

Networks:

Wireshark, Netcat, TCPdump

Systems:

Linux (Debian/Ubuntu), Virtualization (VMware, VirtualBox)

Dev Tools:

Git, GitHub, Visual Studio Code

Certifications

MOOC SecNumAcadémie

Jan 2025

TryHackMe - Certificates

Feb 2025

- Cyber Security 101
- Learning path – Pre Security
- Learning path – Introduction to Cyber Security
